Education

Degree/Certificate	Institute/Board	CGPA	Year
B.E. (AI & ML)	Siddaganga Institute of Technology, Tumkur	9.03 (till 4th sem)	2024-2028

Experience

- **Android Developer (SIT Scholar App)** – *Siddaganga Institute of Technology* *2026 - Present*
  - Developing the official SIT Scholar Android app, adopted college-wide after presenting to and gaining approval from department HODs, giving all students a single platform to track real-time attendance, internal marks, CGPA, and study notes
  - Engineered an OkHttp/Jsoup scraping pipeline for legacy academic portals, implementing session persistence, CSRF-token handling, and authenticated request flows to reliably extract attendance and marks data
  - Designed an offline-first Android architecture using Room, StateFlow, WorkManager, and Hilt, separating local persistence, background synchronization, and reactive UI state
  - Built background attendance sync via WorkManager under battery-optimized constraints, automating updates without manual checks
- **Website Developer, Pathfinder Club** – *Siddaganga Institute of Technology* *Sep 2025 - Present*
  - Built and deployed a full-stack Flask/MongoDB platform for club event management, including registration, authentication, and admin dashboards; processed 200+ registrations across multiple events
- **Website Manager, DeCoders Club** – *Siddaganga Institute of Technology* *Oct 2025 - Present*
  - Integrated MongoDB for automated event registration workflows and analytics
  - Manage deployment and ongoing maintenance of the club website

Projects

- **NeuroBeat - Adaptive Music Therapy Platform** *2025*
  Flask, Python, HTML/CSS, JavaScript Live Demo
  - Built a rule-based, adaptive rhythmic beat generator for neurological rehabilitation (Parkinson's & stroke patients) with algorithmic tempo tuning
  - Designed a gamified Flask interface for patient engagement and progress tracking
- **Knightfall: Dimensional Rifts** *2024*
  Godot Engine, GDScript itch.io
  - Developed 2D platformer with dimension-hopping mechanics and 5 unique levels
  - Implemented physics engine with collision detection and enemy AI using state machines
- **LeetCode Friend List - Chrome Extension** *2025*
  JavaScript, Chrome Extension API, HTML/CSS GitHub
  - Built a Chrome extension to track and compare friends' LeetCode progress directly from the browser
  - Fetched and displayed friend activity and rankings using the LeetCode API

Technical Skills

- **Languages**: Python, C++, C, Kotlin, JavaScript
- **Frameworks & Libraries**: Jetpack Compose, Flask, Node.js, React
- **Databases**: MongoDB, MySQL, Room DB
- **Tools**: Git/GitHub, VS Code, Linux
- **Also**: Godot Engine, GDScript, Unity, Blender, MATLAB, Adobe Photoshop

Achievements

- **1st Place - Hack with Hyderabad Hackathon**: Microsoft Office, Hyderabad *2025*
- **1st Place - Hyperthon Hackathon**: 6-hour hackathon, Browse Technical Fest, CSE Dept., SIT Tumkur *2026*
- **5th Place - Hackademia**: 24-hour hackathon (100+ teams), HackWithIndia & Algo GenZ *Aug 2025*
- **1st Place - Code Conqueror & Reverse Coding**: Coding Competitions, DeCoders SIT *Dec 2025*
- **10+ Hackathons**: Sandbox v2.0, Vibe Hack 2.0, Brewathon, Hackademia (5th), Buildverse *2025-2026*

Positions of Responsibility

- **Founder**: 32-bit - Game Development Club, SIT *2026 - Present*
  - Founded and currently lead the game development club, organizing events and mentoring members in game design and development
- **Technical Lead**: Pathfinder Club, SIT *Sep 2024 - Present*
  - Lead web development and technical infrastructure for college management organization; organized city-wide marathon with 400+ participants
- **Technical Lead**: DeCoders Club, SIT *Mar 2025 - Present*
  - Lead technical workshops, coding competitions, and community events
